Bordj (Castle) El-Mokrani

Is one of the historical monuments contained in the wilaya of Bordj Bou Arreridj from which it takes its name, it is an important cultural heritage which testifies to several successive historical eras in the region. Dating from the Ottoman era, was built by Hassan Pasha, Ben Kheir-Eddine in 1525 on a rock with a height of 15 meters, the highest plateau in the region, used as an observation fort overlooking the entire city of Bordj Bou Arreridj.

In 1871 it was renamed in the name of the leader of the popular revolution Mohamed El Mokrani, when he wanted to take refuge against the successive attacks of the French army. In 1993, it was made available to the National Archeology Agency to return it to a museum.

In 2016, it was opened as a museum after being restored and rehabilitated.

Scientific Committee

- Dr. Djamila Benterki ,BBA
- Pr. Rebiha Benterki, BBA
- Dr. Rebiha Zeghdane,BBA
- Dr. Hadjer Adimi,BBA
- Dr. Smail Addoune,BBA
- Pr. Aissa guesmia,France
- Pr. Dalah Mohamed, Constantine
- Pr. Rachid Boukoucha, Bejaia
- Pr. Mohammed-Salah Abdelouahab, Mila
- Dr. Amel Berahail, Guelma
- Pr. Ameur Memou, M'Sila

- Dr. Khaled Zennir, KSA
- Pr. Marcelo Cavalcanti, Brazil
- Pr. Salim Messaoudi,EAU
- Dr. Aziza Berbache,BBA
- Pr. Nasser-E Tatar,KSA
- Dr. Omar Barkat,Batna
- Dr. Sohaib Milles, Batna
- Pr. Abdenacer Makhlouf, France.
- Pr. Kais Ammari, Tunisia
- Dr. Zoheir Chebel, Batna
- Dr. Hassane Bouremel, Batna

International Conference on Nonlinear Mathematical Analysis and Its Applications

14 & 15 MAY 2024

AЕA Laboratoire d'Analyse Mathématique et Applications

IC– NMAA'24

About the conference

The First International Conference on Nonlinear Mathematical Analysis and Its Applications which is going to be held in Bordj-Bou-Arreridj, Algeria from Mai 14-15 2024, provides a forum for students and researchers around the world to present papers and to exchange ideas on recent developments in Nonlinear Mathematical Analysis and Its Applications. IC-NMAA'24 will include contributions by invited speakers, Oral or Poster presentations.

Topics of the conference

This Conference will cover a lot of topics on Mathematical fields, such that:
- Differential equations and dynamical systems.
- Partial differential equations and functional analysis
- Algebra, number theory and geometry
- Operational research and optimization
- Modeling and Control
- Physical Mathematics
- Probability statistics

Organizing Committee

–**General Conference Chair :**
Dr. Djamila Benterki
–**Honorary Chairs:**
Pr. Bouazza Boudersaya
Rector of Bordj Bou Arréridj University
Pr. Azedine Rahmoune
Dean of Mathematics and Computer Science Faculty
– **Organizing Committee Members:**
Belhadj Foudhil - Hillal Touati - Fares Bensaid - Belkacem Naziheddine - Abdelmalek Berrah - Hanene Debbiche - Khadra Dekkar - Boualem Brahmi - Zoubir Ramdani.
